Via Fax: 803-896-5199

ATTN: Janice

Dear Commissioners:

After discussions with ORS and PSC, I wish to withdraw my request (copy herewith) to "transfer" our current Class C Charter Certificate #7804-A for use as our Non-Emergency Medical Certificate number.

Best Regards,

Mark Watts, Owner

Dear Commissioners:

7804-A

We currently have Class C Charter Certificate #7804. Because we do both Charter and Non-Emergency, ORS instructed us to also get Non-Emergency Medical Certificate. Thus, we will ultimately have both types of certificates.

Firstly, we would like to request an extension of the 90 day time to complete the requirements for Order No. 2018-380.

7804-A

Secondly, we would like to "transfer" our current Class C Charter Certificate #7804 to use with this new Non-Emergency Certificate (Order 2018-380) and have a new Certificate number issued for our current Class C Charter certificate. We are requesting this because of the difficulty, cost, vehicle down-time and time delay for ORS inspections to change so many vehicle certificate numbers.

Our fleet currently consists of 65 Non-Emergency vehicles and only 4 Class C Charter vehicles. We are requesting that you issue a new certificate number for the existing Class C Charter (which only involves 4 vehicles). Allowing us to use ("transfer") this existing Class C Charter Certificate number as our new Non-Emergency certificate number would alleviate a substantial problem for us, as well as reducing our cost of compliance. The current Class C Certificate #7804 is already printed on these 65 vehicles. Removing and replacing this certificate number on so many vehicles will be problematic and costly (especially for those that are on the vehicles painted finish).

This request has been discussed with ORS but they said that I should make this request to you. My contact information is below.

Best Regards,

Mark Watts
